

LET HM FURTHER THE BUZZ AROUND
YOUR PRODUCT WITH TWITTER.

twitter

TWITTER works. And here's a novel idea: tap into our network to expand yours. We will post a link to your **song** (preferably from your myspace or purevolume page), **video** or simply your **site** and create trackable and meaningful discussion about the song/video/product on my twitter, which is integrated with facebook as well. This includes up to 7 tweets to get the discussion going. **\$59** (also coupled in Ad Packages).

The HM twitter account (Dooglar) has 730+ followers.
The HM facebook page (facebook.com/HM.Magazine) has 1,475+ friends.
See what happens when more people are talking about **YOU**.

Contact me to discuss the possibilities.
